

HIV ALLIANCE

What we do

Our mission is to support individuals living with HIV/AIDS and prevent new HIV infections.

HIV is 100 percent preventable, and with your help, we can ensure that methods for prevention are available to all.

Why it matters

1 in 5 people are unaware that they have HIV

How you can help

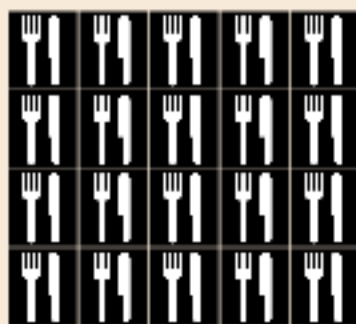

\$75 provides 5 clients with a care package

\$300 buys HIV tests for 20 high-risk people

\$600 helps 20 clients with food needs for one month

What your donation does

Your donation can prolong and better the lives of those living with HIV or those at risk for HIV/AIDS. We greatly appreciate donations of every size as any amount helps further our cause.

Donations to HIV Alliance always go to good use: 87 percent of donations go directly to our clients. The remaining 13 percent go to administration and HIV education.
